Another Tough Puzzle™

Have you conquered the One Tough Puzzle™ challenge?

Are you ready for a NEW ultra challenging puzzle?

With millions of wrong solutions, the chance of solving this puzzle is ONE in 600,000!

With only 16 pieces, this puzzle may look easy...but just when you think you've solved it, the last piece proves you wrong!

Tip: Assemble the puzzle in a pyramid shape. 6 interlocks should extend outside of the border, and the other 6 interlocks should be inverted.

Good luck!
