Zombies & Aliens / Zombies et Extraterrestres

To Apply:
1. Wash and dry the skin to be painted.
2. Dampen the color cake with a damp sponge to soften the paint. This will make the application easier.
3. Apply the base color with the sponge or sponge tip applicator. Keep paint away from eyes.
4. Add details and outlines with sponge tip applicator.

To Remove:
1. Wipe color off with facial tissue. Use cleansing cream or soap and water to remove any remaining color.

Tips:
1. Colors can be mixed with sponge to form new colors.
2. Apply lighter colors before dark.
3. Apply thin layers of paint to avoid cracking. Let first layer dry before adding second to keep the colors from mixing.
4. If painting a specific shape, for instance a butterfly, outline the butterfly shape with sponge tip applicator and then fill in with a sponge.
5. When finished, rinse your sponges and applicators with water and a tiny bit of face soap.

Color Mixing:
