Get the game together and get ready to play! Bunco
The rules for this game are simple and fun. Bunco is played by 12 players (game is always a good excuse to get your friends and family together). If you can't find 11 friends to play with, you have provided rules for 21 players as well.

Object of the game:
To be the player with the most points, of course.

Scoring System:
Master Score Sheets. 3 consecutive rounds are played: 1. Three rolls of dice. 2. Three rolls of dice. 3. Three rolls of dice. The Bunco player rolls all 3 dice, and white die in a tiny dice cup, the Bunco player rolls 3 dice. Each die showing any number and 3 is the Bunco player.

Setting the Score for our table counts:
Sit around the playing area (see Table 1) in a circle and place the Master Score Sheet in the center of the table. Each player has a score card, and the person who scores the first Bunco takes the score card. The score card is passed around the table after each round. Each player scores points for a Bunco, and the person who scores the first Bunco after each round gets the score card for the next round.
