

It's a CHRISTMAS BANNER

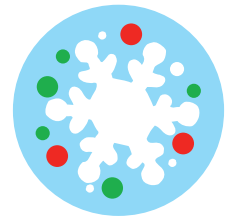

It's Christmas time!

With this kit you will make and decorate a festive Christmas banner! Your first Christmas tree has been decorated for you. Now you can do the rest!

Get ready!

In each bag you will find 2 similar felt shapes. Empty the bag and lay out the felt stickers on top of your shapes. Remember, layering is key! If you're stumped for ideas, use the package or the instructions as a guide. It's super easy just peel and stick!

Get Set!

When your banner shapes are all decorated, it's time to string them up! Thread the satin ribbon through the plastic needle included in the kit. There are slits cut out for you along the tops of the felt shapes. Use the plastic needle to thread the satin ribbon through the slits.

Go!

Now hang up your colorful banner for all your friends to see!

Merry Christmas!
