4. The top card of the DRAW pile is turned over to begin a DISCARD pile.

2. The dealer shuffles and deals each player 7 cards.

1. Each player draws a card; the player that draws the highest number deals (count
Action Cards with a symbol as zero).

3. Place the remainder of the deck face down to form a DRAW pile.

4. The top card of the DRAW pile is turned over to begin a DISCARD pile.

NOTE: If any of the Action Cards (symbols) are turned over to start the DISCARD
pile, see FUNCTIONS OF ACTION CARDS for special instructions.

**LET'S PLAY**

The person to the left of the dealer starts play. On your turn, you must match a card
from your hand to the top card on the DISCARD pile, either by number, color or
symbol (symbols represent Action Cards; see FUNCTIONS OF ACTION CARDS).

EXAMPLE: If the card on the DISCARD pile is a red 7, the player must put down a
red card or any card with the number 7. Alternatively, the player can put down a Wild Card (See
FUNCTIONS OF ACTION CARDS). If you don’t have a card that matches the one on the DISCARD pile, you may choose to draw a card from the DRAW pile. If the player picks up a card that is on the DISCARD pile, the next person in turn is
then allowed to draw a card from the DRAW pile. If there are no playable cards in your hand, you
must draw a card from the DRAW pile. If the card you picked up can be played, you are free to put it down in the same
turn, however, you may not play any other card from your hand after the draw.

**FUNCTIONS OF ACTION CARDS**

Draw 2 Card - When you play this card, the next player must draw 2 cards and
miss their turn. This card may only be played on a matching color or on another Draw Two card. If it is played at the
beginning of play, the next player draws 2 cards.

Reverse Card - When you play this card, the direction of play reverses. Any
player that had played on the current turn must play their next card off the top of the DISCARD pile. This card
may only be played on a matching color or on another Reverse card. If this card is played at the
beginning of play, the next player draws 2 cards and then plays the last card turned up on the DISCARD
pile. The player on the left of the dealer also changes places.

Skip Card - When you play this card, the next player is “skipped”, hence the player
to the left of the player that played this card starts play. This card may only be played on a matching color or on
another Skip card. If a Skip card is played at the beginning of play, the player that
played it goes to the end of the line.

Wild Card - When you play this card, you get to choose the color that the
player to the left of the dealer is forced to play. This card may only be played if
you have another playable card in your hand. If a Wild card is played at the
beginning of play, the person to the left of the dealer chooses the color that continues play.

**SCORING**

The first player to get rid of their cards in a round receives points for all of the cards
left in their opponent’s hand. The points are as follows:

- All numbers (0-9) - 20 Points
- Draw Two - 20 Points
- Reverse - 20 Points
- Skip - 20 Points
- Wild - 50 Points
- Wild Draw Four - 50 Points
- Cheese Touch Card - 50 Points

The WINNER is the first player to reach 500 points.

ALTERNATIVE SCORING AND WINNING

Another way to score points is to keep a running tally of the points each player is left
with at the end of each round. When one player reaches 500 points, the player with
the lowest points is the winner.
