## INSTRUCTIONS

### ZOO-WEE MAMA! CARD GAME

Ages: 8+  
Players: 2-6  
Contents: 55 cards (49 icon cards and 6 "Special Rules" cards)

**Object:**  
Collect the most cards by the end of the game by bluffing or calling your opponent's bluff.

**Game Play:**  
1) Shuffle the cards and set the deck in the center of the play area within easy reach of all players.  
2) Each player takes one card from the top of the deck.  
3) One card is taken from the top of the deck and placed face down next to the pile. This is the "Cheese Touch" card. It is in play, but no one can see the contents.  
4) Each player looks at their card without revealing what is on it to the other players.

5) The player who most recently ate cafeteria food goes first. That player picks an icon on their card, then guesses out loud the total times that icon appears on ALL of the cards in play (including the card that is face down on the playing surface).

6) The player to the left now has three options:  
a) Guess a number HIGHER than what was called for the icon by the previous player  
b) Declare "Zoo Wee Mama!" - meaning, the number for the icon called by the previous player is too high!  
OR

c) Guess a HIGHER number of a DIFFERENT icon. (The main idea is that all guesses must go higher, regardless of which icon is being called.)

7) Once a player declares "Zoo-Wee Mama!", all players show their cards, and the Cheese Touch card is flipped over.

8) Count the number of times the last declared icon appears on all of the cards that have just been flipped over:

a) If the total number of that icon is equal to, or greater than the last number that was called out, the player who called the number wins everyone's cards and the Cheese Touch card.

b) If the total number of that icon is lower than the number declared, the player who called "Zoo-Wee Mama!" wins everyone's cards and the Cheese Touch card.

9) The player who won the cards starts the next round.

10) Play continues in this fashion until all the cards have been played. (If there are not exactly enough cards to play the last round of the game, the game ends and the remaining cards will not be used.)

#### SPECIAL RULES CARDS:

When a player draws a Special Rules card, he/she announces the rule, sets the card off to the side of the playing area, then draws a new card from the pile and follows the instructions of the Special Rule. The winner of the round will also collect the Special Rules card. When

the Cheese Touch card is a Special Rules card, the card is collected by the winner in the same fashion as a regular icon card.

• "Tingy Tax!" - Don't get too attached to those cards you've won: if you draw this card, you must "bet" 2 of the cards you've already won by placing them next to the Draw pile. The player who wins the round will also win these cards! If you do not have any cards to bet, place the card back at the bottom of the Draw pile.

• "Fortune Teller!" - If someone draws this card, everyone must draw a card and hold it icon side out in front of their forehead. Do not look at the card before you put it in front of your forehead! If anyone sees their card before the rule is declared, he/she must return that card to the bottom of the Draw pile and draw again. Play proceeds with the knowledge of everyone's cards except your own - seems easy, but it's not!
