

# INSTRUCTIONS FOR GLOW HOCKEY

Congratulations of your purchase of Glow Hockey. Just follow the instructions below for years of enjoyment playing your new Air Hockey game.

## Instructions

1. Carefully remove all of the components from their packing.
2. Turn the Main Unit over to expose the battery compartment. Remove the battery cover screw and remove the cover (see Figure 1A).
3. Insert 2 fresh new "C" size alkaline batteries in the battery compartment per the polarity markings within the compartment. Then replace the battery compartment cover and screw (see Figure 1B & 1C).

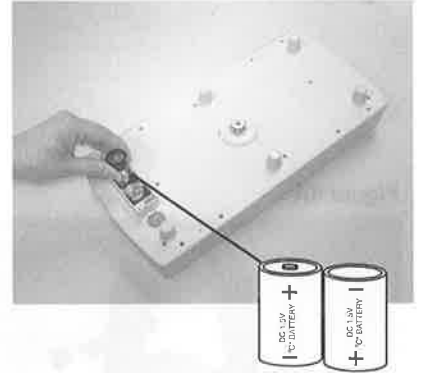

Figure 1A

Figure 1B

Figure 1C

4. Installing Batteries in the Black Light Tower Module - Remove the cover screw and cover from the top of the Black Light Tower Module. Insert 3 fresh new "AA" size alkaline batteries in the battery compartment per the polarity markings within the compartment. Then replace the battery compartment cover and screw (see Figure 2A, 2B & 2C).

Battery insertion must be done by an adult.

Non-rechargeable batteries are not to be recharged.

Rechargeable batteries are to be removed from the product before being charged (if removable).

Rechargeable batteries are only to be charged under adult supervision (if removable).

Different types of batteries (alkaline & standard) or new and used batteries are not to be mixed.

Only batteries of the same or equivalent types as recommended are to be used.

Batteries are to be inserted with the correct polarity.

Exhausted batteries are to be removed from the product.

The supply terminals are not to be short-circuited.

Dispose of batteries safely and correctly.

Do not attempt to burn batteries.

Remove batteries if the product will not be used for a long period of time.

Figure 2B

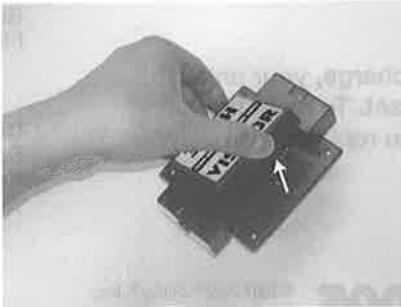

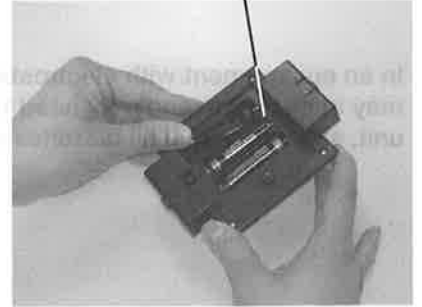

Figure 2C

5. Take one of the Tower Upright Sections & align it on one side of the Main Unit (half-way down that side of the unit). Tilt the upright section in order to get the top lip of the upright section over the edge of the Main Unit and then swing it downward until it snaps on the underside of the Main Unit (see Figure 3A, 3B & 3C). Repeat this procedure on the opposite side of the playing field with the remaining Tower Upright Section.

Figure 3A

Figure 3B

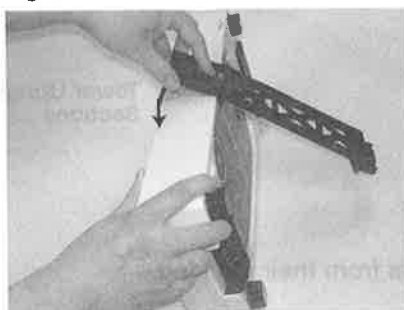

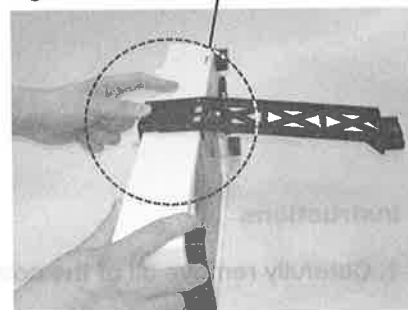

Figure 3C

6. Once both Upright Sections are positioned, install the Black Light Tower Module by sliding it down onto the 2 Tower Upright Sections (see Figure 4A, 4B & 4C). You will hear it "click" when it locks into position.

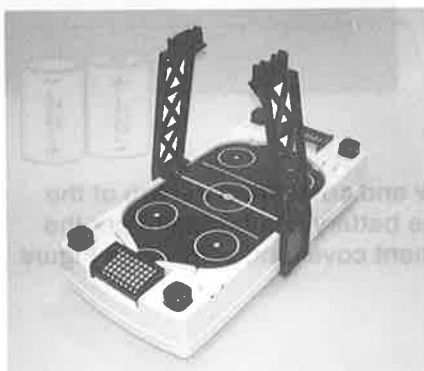

Figure 4B

Figure 4C

7. Now you are ready to play Glow Hockey (refer to Figure 5). Turn the unit ON, place a puck on the playing field, and have a blast. Once you become an expert playing in daylight...try playing in the dark with the Black Light Tower turned ON - Its a whole new ball game!

8. Be sure to use the counters located by each goal to keep track of your scores.

In an environment with electrostatic discharge, your unit may malfunction and may need to be reset. To reset the unit, simply remove all batteries and then replace them.
