

Rub a Dub Jungle Waterfall

Bathtub Playset

There are lots of ways you can arrange your Jungle Waterfall pieces on the bathtub wall for wacky wet fun! To get you started, we're showing our favorite below. You may have to make adjustments along the way, like moving the Elephant a little to the right or the Monkey a little to the left, to get everything streaming and spinning perfectly. The suction cups work best when you stick them to the flat tiles instead of the grout areas between tiles. Try different arrangements on your wall, and have fun experimenting with the Jungle Waterfall!
