HERE’S HOW TO MAKE THE HAT

Layer the front and the back on top of each other.

Double knot the pieces together as shown:

Knot the sides together, about 18 knots on each side.

The flowers and straps for your hat are in a plastic bag. Use these to make your pom-pom. Tie the rest of the fringes together with a strap to create a pom-pom.

Now add flowers to the pom-pom and to the sides of your new hat!

Simply lace the flower onto a piece of fringe and tie the end of the fringe in a double knot to keep it in place.

You can also add some flowers to the knotted seams of your hat!
HERE'S HOW TO MAKE THE SCARF:

Lay the 6 scarf pieces in this order: #1 blue, #2 green, #3 pink, #4 green, #5 blue and #6 pink.

Double knot the pieces together.
Be careful! Don’t pull too hard or the fleece will cinch!

Lace a long strap through the slots from one end of the scarf all the way to the other end.
Leave a few inches of strap on both ends.

Now take the second long strap and lace it into the other side in the same way.

Now add more fleecy fringe to the ends of your scarf! Take the short laces and thread them through the remaining slots on piece #1 and #6.
Double knot in place.

Add flowers to the ends of your fringe! Simply lace the flower onto a piece of fringe and tie the end of the fringe in a double knot to keep it in place.

You can also add some flowers to the knotted seams of your scarf!
To make the bag you need to layer in this order: orange square, blue rectangle and pink square. The 2 squares have slits on one of the edges. Make sure that the edge with the slits is facing the rectangle as shown in the picture below.

Knot the 2 squares to the rectangle like this:

Now tie the fringes on the 3 sides of the bag, and leave the top open.
Lace the green fringed piece to the front of the bag with the multicolored strap. You can choose orange or pink to be the front of your bag.

You can use the needle from the scarf pack.

**Now you can make the bag’s handles.**

Put 3 straps together and insert them through this slit. Tie them in a knot like this:

Braid the straps together and when you get to the end insert the straps into the other slit and tie a knot. Repeat to make the other handle.

Add flowers to the ends of your fringe! Simply lace the flower onto a piece of fringe and tie the end of the fringe in a knot to keep it in place.

You can also add some flowers to the knotted seams of your bag!
