MAKE CANDY WRAPPER JEWELRY

FOLDING A LINK:
Lay wrapper face down.

1. Fold in half
2. Rub across folds to crease
3. Open the wrapper
4. Fold edges into center
5. Crease
6. Fold together
7. Crease again

HINT:
It is easier to make several links before putting the jewelry together.

FIRST LINK ONLY!
Punch your first link like this.
SLIDE LINK ALL THE WAY TO THE BACK AND CENTER.

MAKE A BRACELET!

NOTE:
V shaped link

1. SIMPLE SIDE TO SIMPLE SIDE
2. Slide each side of "V" into the loops of first "V"
3. 1st link will look like this

HINT:
If you’re having trouble, place a clip on the 1st link to secure and slide the 2nd link in!

4. SIMPLE SIDE
5. MANY FOLDS
6. Each link has a simple side and a side with many folds. It is much easier to slide the links into the loops of the simple side.

7. Slide 3rd link into the “V” of the 2nd loop
8. Keep going until the chain is long enough. 16 or 17 is a good length.

9. FINAL LINK:
Use hole punch

10. Make a hole on each end
11. Slide in final link
12. Finish your bracelet off with suede cord and a bead!

For a headband, thread 1 loop through the hole on each end and tie!
For a belt, use 1 suede cord and bead on each end! Just tie together to fasten!

HINT:
It is easier to make several links before putting the jewelry together.
