300,000 WRONG ways to assemble, ONE solution!

With only 9 pieces, this puzzle may look easy... but just when you think you’ve solved it, the last piece proves you wrong!

Here’s a tip: assemble the puzzle in a 3-piece by 3-piece arrangement. 6 interlocks should extend outside of the border, and the other 6 interlocks should be inverted.

Are you up to the CHALLENGE?
