**Object of the Game:**
Be the first player to answer at least one question from each of six categories correctly and reach the finish with your game pawn on your game board.

**Before Play Begins:**
Each player places a mini-game board in front of them, chooses a pawn and places it on Start. Trivia Cards are shuffled and placed in the center of the play area. Category Cards are shuffled and also placed in center of play area. If there are more than four players, create teams combining younger and older players.

**How to Play:**
Youngest player (or team with youngest player) goes first and rolls the colored die to determine what color trivia question to answer. The player to the right picks up the top card from the Trivia deck and reads the corresponding questions aloud, and tells the number of spaces that question is worth. If the question is multiple choice reader reads question and answer choices. If the player answers correctly, he/she moves his/her game pawn the number of spaces indicated on the question card. Players move their pawn along the State Flag spaces on their own mini-game board. In addition, he/she keeps the Category Card and places it in front of them by their game board. This allows players to keep track of whether they have answered all six categories or not. Players *only* collect a Category Card the *first* time they answer a question right in each category—to collect a total of six Category Cards of different colors. If the player answers incorrectly they do not move their pawn and they do not collect a Category Card. Trivia Card goes to bottom of deck.

Play continues clockwise with next player.

**Team Play:**
Team play is the same as individual play except each team must agree on an answer for each question.

**Winning the Game:**
Play continues with players or teams answering questions and moving the indicated number of spaces on their mini-game boards. If a player reaches the finish but has not collected all six Category Cards they must remain on the Hawaii space until they have answered a question from each category correctly and collected all six category cards. They must roll the color on the die that corresponds to the category question needed. The first player to reach Hawaii and answer at least one question from each category can move to the Finish square and win the game.

---

**WARNING:**
CHOKING HAZARD - Small Parts. Not for Children under 3 years.
