Cupcake Snack
Instructions - Game 1

Contents: 38 Cards, Players: 2-6

Start by shuffling the deck, then place the entire deck in a pile, face down in the center of the play area. Players take turns flipping over a card from the central draw deck, one at a time, placing it directly next to the draw pile for all to see. When a Cupcake card is turned over, everyone quickly places their hand down on the Cupcake card. The player who is the first to “eat the cupcake” (first player with their hand on the card) wins the entire stack of cards under the cupcake. If a player mistakenly slaps the wrong card, they must forfeit all the cards they have earned up to that point and place them at the bottom of the draw pile. For instance, the Peter card looks a lot like the Cupcake card, and if you try to “eat” his cupcake, you must forfeit all your cards to the bottom of the draw pile! Once the whole deck has been played, the players count their cards. The player with the most cards wins.
Cupcake Snack
Instructions - Game 2

Contents: 38 Cards, Players: 2-6

Start by placing the Cupcake cards in the middle of the play area (1 less than the number of players in the game. If necessary, use the Cupcake cards with Peter too). The dealer shuffles the cards and deals 4 to each player. The remaining cards are placed in a pile, face down, to the right side of the dealer. When play starts, each player must try to collect 3 of a kind. The dealer starts by picking a card from the draw pile, then passing whichever card from their hand that they don’t want to the player on their left, face down on the table. That player picks it up, and selects whichever card they don’t want from their hand and passes it to the next player, face down on the table. Play resumes in this manner until one player collects 3 of a kind. This player quietly places their 3 cards face down in a stack in front of them and picks up one of the Cupcake cards. When the other players notice, they also grab one of the Cupcake cards. The last person to notice will not get a Cupcake card and is eliminated. The next round starts with 1 less Cupcake card in the middle. The cards are re-shuffled and dealt to the remaining players. When the game gets down to 2 players, the first player to grab a Cupcake card is the winner!
