2 or more players

lay the cards face down in a grid. players will take turns. the 1st player flips over 2 cards. if you make a match, keep the pieces and take another turn until you cannot find a match. turn the cards over in the same place so you remember for your next turn. continue playing until all the cards have been matched. the player with the most pairs at the end wins!

beginner start by using half of the cards. lay out the cards face down in a grid.

advanced once your memory improves, lay out and match all the cards.

single player flip over 2 cards at a time to find a match. count how many turns it takes to match all of the cards. try to improve after each game.

younger players lay out all the cards face up and try to find the matching pairs.
