

Shrinky Dinks[®] Charm Girls

! CAUTION: Adult supervision is required to operate oven.

BAKING:

1. Preheat toaster oven (recommended) or conventional oven to **325 °F (163 °C)**.

2. Color your SHRINKY DINKS[®] shapes with the included ALEX[®] colored pencils.

3. Line a cookie sheet or tray with a piece of aluminum foil or baking parchment paper. Arrange shapes, **colored side up**, on foil. Leave about 3 inches (7.5cm) between shapes so they won't stick together.

4. Always have an adult help to operate the oven. Bake in preheated oven for approximately **1 - 3 minutes**. Watch them shrink! At first the pieces will curl up, but then they will flatten out again. Once they lay flat, bake for **another 30 seconds**. Now they're done!

5. Have an adult carefully remove from oven using a potholder, then remove the foil or paper from the cookie sheet or tray. Lightly press the pieces flat with a folded paper or pad of paper until they are cool (about 15 seconds).

When your SHRINKY DINKS[®] are cool, you're ready to dangle them together!

Bend the metal rings to create an opening. Connect the SHRINKY DINKS[®] body parts together. Now you can hang them on your bag, pants or anywhere you like!

IMPORTANT INFORMATION:

SHRINKY DINKS[®] will NOT work in a microwave oven!
Use colored pencils only. Markers and crayons will not work.
