CONTENTS
12 Pigs, Game Unit (Motorized Game Base, Support Elements & Cloud Cone)

OBJECT
Get rid of all your pigs by makin’ them fly and givin’ them away!

SET-UP
Everybody take an equal number of pigs to start your personal pig pile. Press the on/off button in the center of the game unit to start the clouds spinning.

PLAY
Take turns spinning the spinner, and everyone plays at the same time. Depending on what image appears on the spinner in front of you, do the following:

- **Flying Pig:** Launch one of your pigs. You get one try. If it doesn't fly (stick to the cloud cone) return it to your pig pile.
- **Parachuting Pig:** Pluck a flying pig from the sky and add him to your pig pile. If there aren't any flying pigs, lucky for you! You don't have to take a pig.
- **Pig Jumping a Fence:** Give one of your piggies to somebody else.
- **Snoozing Pig:** Nothing happens! Your pigs are sleeping.

After everyone has done their required action, somebody else spins the spinner and play again the same way.

WINNING
If you're the first to be completely pigless, OINK OINK! - you're the winner!
Step 1
Unscrew the battery compartment cover and insert 2 AA batteries making sure that the positive and negative ends match the correct contacts. Replace cover and screw down.

Step 2
Install the 4 cannons onto the 4 arms of the motorized base. Gently press down on the cannons until they lock into place.

Step 3
Unfold the cloud cone (3A). Press the two open corners of the cloud cone together (3B) so the velcro attaches and creates a cone shape (3C).

Step 4
Follow this diagram for the final assembly. Start from the top sandwiching the cloud cone between the cone support plug and cloud cone support. Attach these to the main support tube. Finally place the bottom of the main support tube into the motorized base.

WARNING:
CHOKING HAZARD - Toy contains small parts and small balls. Not for children under 3 years.

BATTERY WARNING:
- Do not mix alkaline, standard (carbon-zinc) and rechargeable batteries (nickel hydride).
- Do not mix old and new batteries.
- Non-rechargeable batteries are not to be recharged.
- Rechargeable batteries are to be removed from the appliance before being charged (if removable).
- Rechargeable batteries are only to be charged under adult supervision (if removable).
- Exhausted batteries are to be removed.
- The supply terminals are not to be short circuited.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.

READY, AIM, FIRE!!!
Load pigs feet down into the cannon. Slap the handle to launch your pig sky high!
